

Policy for making financial contributions towards training courses for members

The committee will consider all requests from members for financial assistance towards club related training courses (eg coaching and safeguarding)

The committee will take account of the following factors in each decision:

1. Affordability and the club's finances
2. The advice of the club Treasurer
3. The benefit to the club in having the member trained
4. The wider benefit to the individual
5. Other grants and bursaries available
6. The individual's commitment to use their new skills for the club's benefit.

This policy was agreed at the WCCC committee on 11th July 2017
